Chemistry Warm-Up Guidelines

1. Start warm-up immediately upon entering class.
2. Warm-ups are to be completed individually.
3. Warm-ups will be timed.
4. Write Warm-Up # and the entire question.
5. Answer the question completely and/or choose the best response.
6. Show all work.
7. Warm-ups may be collected daily.
8. Students are to self-correct answers for each warm-up.
9. If absent, then student is responsible for getting the missed warm-up from teacher or class website.
